

HP Stable & Consistent Offerings

Choosing hardware and software for a workstation is often a no-brainer—you know what you need before you even start looking at platforms. What if you could pick and choose your components based not only on your individual requirements, but also on the assurance that they would be available for the lifecycle of your HP Workstation? Now, with HP Stable & Consistent Offerings, you can. Choose from a range of options that will be available as long as your HP Workstation, including:

- Processors
- Graphics cards
- Hard drives
- Optical drives
- Memory
- Operating systems
- Peripherals

Sound amazing? It is. That's HP.

STABLE & CONSISTENT

Imagine measuring refresh cycles in years instead of months. HP Stable & Consistent Offerings allow HP Workstation customers such as OEMs and large enterprises to simplify their certification and support burdens and streamline large deployments with configurations that are long-term future-ready right out of the box. This stability is also a bonus for resellers and channel partners who want to meet the specialized

platform stability requirements of their large volume customers and help them minimize the disruptions associated with repeatedly qualifying new configurations.

As part of its commitment to hardware, software, and solution innovation, HP is proud to introduce this breakthrough platform configuration stability to HP Workstation customers. HP Stable & Consistent Offerings are built on the foundation of a carefully chosen set of hardware and software designed and tested to work with all HP Z Workstation platforms through their end of life. These components and their corresponding HP Workstation platform compatibility are outlined on the next page.

HP Stable & Consistent Offerings are available worldwide to all HP Workstation customers—no special programs, no additional cost—no kidding. Simply select your hardware and software components when you customize your HP Workstation and be assured that you'll be able to buy that same configuration throughout the lifecycle of the product.
